General Information

Omcan Manufacturing and Distributing Company Inc., Food Machinery of America, Inc. dba Omcan and Omcan Inc. are not responsible for any harm or injury caused due to any person's improper or negligent use of this equipment. The product shall only be operated by someone over the age of 18, of sound mind, and not under the influence of any drugs or alcohol, who has been trained in the correct operation of this machine, and is wearing authorized, proper safety clothing. Any modification to the machine voids any warranty, and may cause harm to individuals using the machine or in the vicinity of the machine while in operation.

CHECK PACKAGE UPON ARRIVAL

Upon receipt of an Omcan shipment please inspect for external damage. If no damage is evident on the external packaging, open carton to ensure all ordered items are within the box, and there is no concealed damage to the machine. If the package has suffered rough handling, bumps or damage (visible or concealed), please note it on the bill of lading before accepting the delivery and contact Omcan within 24 hours, so we may initiate a claim with the carrier. A detailed report on the extent of the damage caused to the machine must be filled out within three days, from the delivery date shown in the shipping documents. Omcan has no recourse for damaged products that were shipped collect or third party.

Before operating any equipment, always read and familiarize yourself with all operation and safety instructions.

Omcan would like to thank you for purchasing this machine. It's of the utmost importance to save these instructions for future reference. Also save the original box and packaging for shipping the equipment if servicing or returning of the machine is required.

Omcan Fabrication et distribution Compagnie Limitée et Food Machinery d'Amérique, dba Omcan et Omcan Inc. ne sont pas responsables de tout dommage ou blessure causé du fait que toute personne ait utilisé cet équipement de façon irrégulière. Le produit ne doit être exploité que par quelqu'un de plus de 18 ans, sain d'esprit, et pas sous l'influence d'une drogue ou d'alcool, qui a été formé pour utiliser cette machine correctement, et est vêtu de vêtements de sécurité appropriés. Toute modification de la machine annule toute garantie, et peut causer un préjudice à des personnes utilisant la machine ou des personnes à proximité de la machine pendant son fonctionnement.

VÉRIFIEZ LE COLIS DÈS RÉCEPTION

Dès réception d'une expédition d'Omcan veuillez inspecter pour dommages externes. Si aucun dommage n'est visible sur l'emballage externe, ouvrez le carton afin de s'assurer que tous les éléments commandés sont dans la boîte, et il n'y a aucun dommage dissimulé à la machine. Si le colis n'a subi aucune mauvaises manipulations, de bosses ou de dommages (visible ou cachée), notez-le sur le bond de livraison avant d'accepter la livraison et contactez Omcan dans les 24 heures qui suivent, pour que nous puissions engager une réclamation auprès du transporteur. Un rapport détaillé sur l'étendue des dommages causés à la machine doit être rempli dans un délai de trois jours, à compter de la date de livraison indiquée dans les documents d'expédition. Omcan n'a aucun droit de recours pour les produits endommagés qui ont été expédiés ou cueillis par un tiers transporteur.

General Information

Avant d'utiliser n'importe quel équipement, toujours lire et vous familiariser avec toutes les opérations et les consignes de sécurité.

Omcan voudrais vous remercier d'avoir choisi cette machine. Il est primordial de conserver ces instructions pour une référence ultérieure. Également conservez la boîte originale et l'emballage pour l'expédition de l'équipement si l'entretien ou le retour de la machine est nécessaire.

Omcan Empresa De Fabricacion Y Distribucion Inc. Y Maquinaria De Alimentos De America, Inc. dba Omcan y Omcan Inc. no son responsables de ningun daño o perjuicio causado por cualquier persona inadecuada o el uso descuidado de este equipo. El producto solo podra ser operado por una persona mayor de 18 años, en su sano juicio y no bajo alguna influencia de droga o alcohol, y que este ha sido entrenado en el correcto funcionamiento de esta máquina, y ésta usando ropa apropiada y autorizada. Cualquier modificación a la máquina anula la garantía y puede causar daños a las personas usando la máquina mientras esta en el funcionamiento.

REVISE EL PAQUETE A SU LLEGADA

Tras la recepcion de un envio Omcan favor inspeccionar daños externos. Si no hay daños evidentes en el empaque exterior, Habra el carton para asegurarse que todos los articulos solicitados estén dentro de la caja y no encuentre daños ocultos en la máquina. Si el paquete ha sufrido un manejo de poco cuidado, golpes o daños (visible o oculto) por favor anote en la factura antes de aceptar la entrega y contacte Omcan dentro de las 24 horas, de modo que podamos iniciar una reclamación con la compañía. Un informe detallado sobre los daños causados a la máquina debe ser llenado en el plazo de tres días, desde la fecha de entrega que se muestra en los documentos de envío. Omcan no tiene ningun recurso por productos dañados que se enviaron a recoger por terceros.

Antes de utilizar cualquier equipo, siempre lea y familiarizarse con todas las instrucciones de funcionamiento y seguridad.

Omcan le gustaría darle las gracias por la compra de esta máquina. Es de la mayor importancia para salvar estas instrucciones para futuras consultas. Además, guarda la caja original y el embalaje para el envío del equipo si servicio técnico o devolución de la máquina que se requiere.

Safety and Warranty

- To minimize shock and fire hazards, be sure not to overload the outlet.
- To minimize electric shock and malfunction, do not spray the unit with water.
- To minimize fire hazards, do not use flammable spray products near the unit.
- After unplugging the unit, wait at least 6 minutes before re-plugging it. It may cause compressor failure if plugged in before 6 minutes waiting period.
- Cautions for cleaning:
 - Unplug the power cord before cleaning.

Safety and Warranty

- Do not unplug-plug the power cord with wet hands.
- Do not use an abrasive cleaners, solvents or polishing agents on plastic parts. Doing so might cause cracking or discoloring.
- When it is not in use:
 - Unplug the power cord.
 - Wipe inside with dry cloth, and you may leave the door slightly open to eliminate moisture and odor.

1 YEAR PARTS AND LABOUR / 5 YEARS PARTS ONLY ON COMPRESSOR WARRANTY

Within the warranty period, contact Omcan Inc. at 1-800-465-0234 to schedule an Omcan authorized service technician to repair the equipment locally.

Unauthorized maintenance will void the warranty. Warranty covers electrical and part failures, not improper use.

Please see www.omcan.com/warranty.html for complete info.

WARNING:

The packaging components are classified as normal solid urban waste and can therefore be disposed of without difficulty.

In any case, for suitable recycling, we suggest disposing of the products separately (differentiated waste) according to the current norms.

DO NOT DISCARD ANY PACKAGING MATERIALS IN THE ENVIRONMENT!

Installation

IMPORTANT!!!PLEASE READ BEFORE INSTALLATION

- The refrigeration system operates most efficiently when installed in an area with cool, dry air circulation.
- There must be at least 6 inches of clearance on both sides and the back of the cabinet.
- Select a location away from the heat and moisture generating equipment such as stoves, ovens, etc.
- Avoid direct sun rays.
- Be sure that the floor where you intend to install that unit is strong and level enough to support the total weight of the unit and its contents.
- To minimize shock and fire hazards, be sure that the unit is properly grounded. For your safety and protection, all units are equipped with a special three-prong grounding plug on the service cord.
- All units are designed for indoor use. Outdoor use may cause significant damage to the unit.

Maintenance

- When loading the unit:
 - Be careful not to block the air duct located at the back and the fan on the ceiling of the unit with contents.
 - Blocking the air flow may cause decrease in performance.
 - For the best performance, maintain at least 4 inches of clearance between the contents and the air duct.
- Set the shelves that come with the unit to fit your needs.
- Temperature controller:
 - The controller is located at the right, front corner of the ceiling, or on the front bottom panel.
 - To adjust temperature please refer to the manual of temperature controller.
- Do not leave the unit door open for long period of time. For the most efficient operation, close the door immediately after the use.

Troubleshooting

SYMPTOMS	POSSIBLE CAUSE
Compressor will not start	Check if the power cord has been plugged in.
	Check for blown fuse.
Poor Performance	Move the unit from direct sun light, and avoid installing heating devices near the unit.
	Install the unit in a well ventilated place with minimum of 6" clearance in the back.
	Check the condenser, and clean if heavy dust is collected.
	Check to see if contents are blocking the air duct.
	Check to see if refrigerant charge is low.
	Make sure the door is completely closed.
No Interior Light	Turn off the light switch and turn it on again.
	Make sure the light is correctly inserted into the sockets.
	Check the light, and replace it if blown.
Unit Noisy	Make sure to install the unit on level surface.
	Make sure to maintain the minimum clearance of 6" from the wall.
	Check for the loose parts or mounting.
	Make sure the tubing is free from any contact to avoid tubing rattle.
Condensation on Cabinet and/or Floor	Reduce the relatively humidity in the area where the unit is installed.
	Gasket on door or head section is not sealing properly. Repair or replace gasket as necessary.

Controller Instructions

Digital controller model: PJEZ for cooler

Dimensioni (mm) / Dimensions (mm)

Fig. 1

Display and functions

During normal operation, the controller displays the value of the probe set using parameter/4(=1 ambient probe, default, = 2 second probe, = 3 third probe). In addition, the display has LEDs that indicate the activation of the control functions (see Table 1), while the 3 buttons can be used to activate/deactivate some of the functions (see Table 2).

LED's and Associated Functions (Table 1)

Icon	Function	Normal Operation			Start Up
		ON	OFF	Blink	
	Compressor	On	Off	Request	ON
	Fan	On	Off	Request	ON
	Defrost	On	Off	Request	ON
AUX	Aux	Output On	Output Off	-	ON
	Alarm	All	No Alarm	-	ON
	Clock	RTC fitted and enabled, at least 1 time band set	RTC not fitted or disabled, not even 1 time band set	-	ON if RTC fitted

Controller Instructions

Table of Functions activated by the buttons - Models S, X, Y, C (Table 2)

Button		Normal Operation		Start Up	
		Pressing the Button Alone	Pressed Together		
	Up ON/OFF	More than 3 sec: toggle ON/OFF	Start/Stop continuous cycle	-	
	Down Defrost	More than 3 sec: start/stop defrost		Pressed together Start parameter reset procedure	For 1 sec. display firmware vers. code
	Set Mute	- 1 sec.: display/set the set point. - more than 3 secs.: access parameter setting menu (enter password) - mute audible alarm (buzzer)	-		For 1 sec. RESET current EZY set

Setting the set point (desired temperature)

- press **SET** for 1 sec, the set value will start flashing after a few moments;
- increase or decrease the value using **UP** or **DOWN**;
- press **SET** to confirm the new value.

Switching the device ON/OFF

Press **UP** for more than 3 sec. The control and defrost algorithms are now disabled and the Instrument displays the message “OFF” alternating with the temperature read by the set probe.

Manual defrost

Press for **DOWN** more than 3 sec (the defrost starts only the temperature conditions are valid).

Continuous cycle

Press **UP** and **DOWN** together for more than 3 sec.

Access and setting type F (frequent) and type C (configuration) parameters.

1. Press **SET** for 3 sec (the display will show “PS”).
2. • To access the type F and C parameter menu, enter the password “22” using **UP/DOWN**, press **SET** to confirm.
• To access the F parameter menu only, press **SET** (without entering the password).
3. Scroll inside the parameter menu using **UP/DOWN**.

Controller Instructions

- To display/set the values of the parameter displayed, press **SET**, then **UP/DOWN** and finally **SET** to confirm the changes (returning to the parameter menu).

To save all the new values and exit the parameter menu, press **SET** for 3 s.

To exit the menu without saving the changed values (exit by timeout) do not press any button for at least 60 s.

Digital controller model: IR33 for freezer

Montaggio a pannello ir33/ir33 panel mounting:

Montaggio a pannello mediante due staffe plastiche a scorrimento laterale
Panel mounting by two lateral sliding plastic brackets

Dimensioni (mm) /Dimensions (mm)

Signals on the display

The blinking status indicates a request for activation that cannot be implemented until the end of the Corresponding delay times.

Icon	Function	ON	OFF	Blink	Startup
	Compressor	Compressor on	Compressor off	Request	
	Fan	Fan on	Fan off	Request	
	Defrost	Defrost in progress	Defrost not required	Request	
AUX	Aux	Auxiliary Output AUX active	Auxiliary Output AUX not active	Anti-sweat heater function active	
	Alarm	Delayed external alarm (before the expiry of the time 'A7')	No alarm present	Alarms in normal operation (eg. high/low temp.) or alarm from ext. digital input immediate or delayed	
	Clock	At least one timed defrost has been set	No timed defrost is present	Clock alarm	On if Real-Time Clock present

Controller Instructions

	Light	Auxiliary output light active	Auxiliary output light not active	Anti-sweat heater function active	
	Service		No malfunction	Malfunction (eg. EEPROM error or probe fault)	
HACCP	HACCP	HACCP function	HACCP function enabled	HACCP alarm (HA and/or HF) not enabled	
	Continuous Cycle	Enabled	Not enabled	Request	

Setting the set point (desired temperature value)

To display or set the set point, proceed as follow:

1. press the “Set” button for more than 1 second to display the set point;
2. increase or decrease the value of the set point, using the “ aux” and “ def” respectively, until reaching the desired value;
3. press the “Set” button again to confirm the new value,

Alarms with manual reset

The alarms with manual reset can be reset by pressing the “ mute” and “ aux” for more than 5 sec.

Manual defrost

As well as the automatic defrost function, a manual defrost can be enabled, if the temperature conditions allow, by pressing the “ def” button for more than 5 sec.

Continuous cycle

Pressing the buttons “ aux” and “ def” simultaneously for more than 5 seconds enables the continuous cycle function. During operation in continuous cycle, the compressor continues to operate for the time “cc” and it stops when it reaches the “cc” time out or the minimum temperature has been reached (AL = minimum temperature alarm threshold). Continuous cycle setting: “cc” parameter (continuous cycle duration): “cc”=0 never active; “c6” parameter (by passing the alarm after the continuous cycle): “cc” = 0 never active; it avoid or delays the low temperature alarm after the continuous cycle.

Accessing the configuration parameter (type C)

1. Pressing the “ mute” and “Set” buttons at the same time for more than 5 sec, the display will show “00”(password prompt).
2. Use the “ aux” or “ def” buttons to display the number “22” (parameter access password).
3. Confirm by pressing “Set”.
4. The display will show the first modifiable “C” parameter.

Controller Instructions

Accessing the configuration parameter (type F)

1. Hold the "**Prg**" mute button for more than 5 s (if there are active alarms, first mute the buzzer), the display will show the first modifiable "F" parameter.

Modifying the parameters

After having displayed the parameter, either type "C" or type "F", proceed as follows:

1. Use the "**▲**" aux or "**▼**" def buttons to scroll the parameters, until reaching the parameter to be modified; when scrolling the parameters, an icon is shown on the display that represents the category of the parameter.
2. Alternatively, press the "**Prg**" mute button to display a menu that can be used to quickly access the family of parameters to be modified.
3. Scrolling the menu using the "**▲**" aux and "**▼**" def buttons displays the codes of the various categories of parameter, accompanied by the corresponding icon on the display(if present).
4. Once having reached the desired category, press "**Set**" to go directly to the first parameter in the chosen category(if no parameter is visible, pressing the "**Set**" button will have no effect).
5. At this stage, modify the parameters or return to the "Category" menu, using the "**Prg**" mute button.
6. Press "**Set**" to display the value associated with the parameter.
7. Increase or decrease the value using the "**▲**" aux or "**▼**" def buttons respectively.
8. Press "**Set**" to temporarily save the new value and return to the display of the parameter.
9. Repeat the operation from point 1 or point 2.
10. If the parameter has sub-parameters, press "**Set**" to display the first sub-parameter.
11. Press the "**▲**" aux or "**▼**" def button to display all the sub-parameters.
12. Press "**Set**" to display the associated value.
13. Increase or decrease the value using the "**▲**" aux or "**▼**" def button respectively.
14. Press "**Set**" to temporarily save the new value and return to the display of the sub-parameter code.
15. Press "**Prg**" mute to return to the display of the parent parameter.

Saving the new values assigned to the parameters

To definitely save the new values of the modified parameters, press the "**Prg**" mute button for more than 5 seconds, thus exiting the parameter setting procedure. All the modification made to the parameters temporarily saved in the RAM, can be cancelled and "normal operation" resumed by not pressing any button for 60 seconds, thus allowing the parameter setting session to expire due to timeout if the Instrument is switched off before pressing the "**Prg**" mute button, all the modifications made to the parameters and temporarily saved will be lost.

Mechanical Controller Instructions

OFF: shut the compressor off

Temperature range from 7 (coldest) to 1 (warmest).

CAUTION: Setting the temperature control to the coldest setting may cause the evaporator coil to freeze and ice up. This will eventually result in a warmer cabinet temperature.

Controller Instructions

Thank you for choosing Omcan | Merci d'avoir choisi Omcan | Gracias por elegir Omcan

Since 1951 Omcan has grown to become a leading distributor of equipment and supplies to the North American food service industry. Our success over these many years can be attributed to our commitment to strengthen and develop new and existing relationships with our valued customers and manufacturers. Today with partners in North America, Europe, Asia and South America, we continually work to improve and grow the company. We strive to offer customers exceptional value through our qualified local sales and service representatives who provide convenient access to over 3, 500 globally sourced products.

Depuis 1951 Omcan a grandi pour devenir un des “leaders” de la distribution des équipements et matériel pour l’industrie des services alimentaires en Amérique du Nord. Notre succès au cours de ces nombreuses années peut être attribué à notre engagement à renforcer et à développer de nouvelles et existantes relations avec nos clients et les fabricants de valeur. Aujourd’hui avec des partenaires en Amérique du Nord, Europe, Asie et Amérique du Sud, nous travaillons continuellement à améliorer et développer l’entreprise. Nous nous efforçons d’offrir à nos clients une valeur exceptionnelle grâce à nos ventes locales qualifiées et des représentants de service qui offrent un accès facile à plus de 3500 produits provenant du monde entier.

Desde 1951 Omcan ha crecido hasta convertirse en un líder en la distribución de equipos y suministros de alimentos en América del Norte industria de servicios. Nuestro éxito en estos años se puede atribuir a nuestro compromiso de fortalecer y desarrollar nuevas relaciones existentes con nuestros valiosos clientes y fabricantes. Hoy con socios de América del Norte, Europa, Asia y América del Sur, que trabajan continuamente para mejorar y crecer la empresa.
